Estates Operations ensure that the University's Estate meets statutory compliance requirements.

**Estates Development:** Manage new building projects and the refurbishment of existing buildings to meet the needs of the University.

**Facilities Service Delivery:** Provide operational services including cleaning, receptions, mail room services and telephony.

**Space management:** Oversee the allocation of University space through managing the University's residential accommodation service, learning spaces (timetabling, room bookings and audio visual technology), space audit and planning activity.

**Administration services:** Operate the Facilities Helpdesk and provide services for recruitment, training and general administration in support of the other DECS teams.

The overall service levels are monitored by our Facilities Managers who provide the link between DECS service providers and University Departments.

DECS is the largest of any of the University Departments and we appreciate that successful service delivery can only be realised through motivated staff. To this aim DECS has developed a set of core values that promote dignity and respect for all. All members of DECS are expected to adhere to these values. Finally DECS is developing a Quality Management System that will promote an environment that encourages continuous improvement. All members of DECS are encouraged to examine the services we deliver and look at ways of making them better and more efficient.
