DECS is split into three main areas of service delivery, each overseen by a Director:

**Estates Operations**

Are responsible for providing a 'fit for purpose estate', ensuring:

- well-planned operations and maintenance of the University’s Buildings and Grounds, whilst meeting environmental sustainability objectives;
- the efficient provision of requisite infrastructure and of utility supplies;
- that the University’s Estate meets health, safety and other statutory compliance requirements;
- the effective management of the University's property portfolio.

**Estates Development**

Leads the sustainable development of the campus:

- setting out the vision, master plan framework, estate strategy and design standards for the campus;
- forms and manages the programme of investment projects, including for new buildings, infrastructure and the refurbishment of existing assets to meet the needs of the University.

**Campus Services**

- leading highly-engaging customer relationship teams, through operating a range of receptions, and the Facilities Helpdesk;
- ensuring teams in business systems, marketing and communications, recruitment, training and general administration support the best possible decision making across DECS.

DECS is the largest of any of the University Departments and we appreciate that successful service delivery can only be realised through motivated staff. To this aim DECS has developed a set of core values that promote dignity and respect for all. All members of DECS are expected to adhere to these values. A full copy of the values can be found at: [DECS Values](#).

Finally DECS is developing a Quality Management System that will promote an environment that encourages continuous improvement. All members of DECS are encouraged to examine the services we deliver and look at ways of making them better and more efficient.
